The following is an Examiner's Statement of Reasons for Allowance:

The following references appear to be the closest art to the claimed invention. Neidhart *et al.* (British J. Rheumatology 36, 1151-1160 (1997)) teach native human cartilage oligomeric matrix protein (hCOMP) was purified from articular cartilage by extraction with EDTA-containing buffer, affinity chromatography on wheat germ agglutinin coupled to CNBr-activated Sepharose, gel filtration on Sepharose CL4B, and affinity chromatography on heparin coupled to Sepharose CL6B, however, the reference does not teach hCOMP is purified in the presence of calcium, where hCOMP is obtained in a calcium replete form which is critical for COMP's maximal GAG binding capacity and maximal cell adhesive activity; and Heinegard *et al.* (WO 98/46253) teach a pharmaceutical composition comprising a purified bovine, rat or human COMP, where COMP is purified in the presence of EDTA, however, the references do not teach a composition comprising a purified COMP and at least one biological matrix selected from the group consisting of: treated cartilage and bone matrices, collagens, hyaluronan, fibrin gels, carbon fibers, porous polylactic acid, type I collagen gel, and type II collagen gel, and further comprising chondrocytes or mesenchymal stem cells, or a differentiation agent, or chondroitin sulfate proteoglycans. Therefore, the claims are allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chih-Min Kam whose telephone number is (571) 272-0948. The examiner can normally be reached on 8.00-4:30, Mon-Fri.
